Consolidation of SMU's Sustainable Development Goals (SDG) Initiatives for A.Y. 2024-2025
Date: October 27, 2025

Abstract
This report presents a comprehensive analysis of Saint Mary's University's (SMU) initiatives aligned with the United Nations Sustainable Development Goals (SDGs) for Academic Year 2024–2025. Data were gathered from 34 Annual Reports sourced from the Institutional Development and Quality Assurance Office (IDQAO) DocuHub. A total of 824 SDG-aligned activities were documented across all 17 goals, reflecting the University's sustained integration of sustainability principles in instruction, research, community engagement, and governance. Results reveal that SDG 4: Quality Education recorded the highest number of initiatives, followed by SDG 17: Partnerships for the Goals and SDG 3: Good Health and Well-being, indicating the University's strong focus on educational advancement, collaboration, and community welfare. Unit-level analysis identified the College of Natural Sciences (CNS), the School of Health and Natural Sciences (SHANS), and the School of Accountancy and Business (SAB) as leading contributors to SDG implementation. Overall, the report underscores SMU's institutional commitment to fostering transformative education and sustainable community development through active engagement in the global SDG agenda.

INTRODUCTION

Higher Education Institutions (HEIs), such as Saint Mary's University (SMU), play a key role in advancing the United Nations' 17 Sustainable Development Goals (SDGs) through their commitment to promoting balanced economic growth, social inclusion, and environmental sustainability. Guided by their core mandates of instruction, research, and community engagement, HEIs integrate sustainability across disciplines, produce evidence-based innovations for sustainable transitions, and promote responsible governance and policy advocacy in partnership with their stakeholders.
SMU exemplifies this institutional commitment by embedding the SDGs into its academic and operational frameworks. As a higher education institution in Nueva Vizcaya with both local and international linkages, the University implements initiatives that address critical areas, such as poverty alleviation, quality education, health and well-being, gender equality, environmental protection, and social justice. By aligning its initiatives with the SDGs, SMU reaffirms its solidarity with the global community in addressing urgent developmental and ecological challenges. This commitment resonates with the University's adherence to the principles of integral ecology and environmental stewardship, as articulated in *Laudato Si'*.

This report consolidates SMU's SDG-aligned initiatives for Academic Year 2024–2025. The data were sourced from 34 Annual Reports published in the SMU Institutional Development and Quality Assurance Office (IDQAO) Docuhub. The report presents the scope and diversity of these initiatives, establishing a benchmark for institutional progress and a framework for continuous enhancement of the University's contribution to sustainable development.

METHODOLOGY

The data were gathered from the Annual Reports available on the SMU IDQAO DocuHub, which contains a total of 37 reports. However, only 34 of these were utilized as data sources, as three reports (PPPDMO, COL, SGS) were inaccessible during the data collection from Sept. 11, 2025 to Oct. 27, 2025.

(078) 392-8103

Furthermore, the consolidation of the SDGs was based on the identified SDG alignments indicated in the *Activity Narrative Report Form* (EOMS-QAO-FO-008, Rev.00) attached as evidence in the Annual Reports. The following parameters guided the data-gathering process:

1. **Source of data.** Information was obtained from the accomplished *Activity Narrative Report Form* (EOMS-QAO-FO-008, Rev.00) attached to the 34 Annual Reports.
2. **Multiple alignment.** Certain activities were mapped to more than one SDG, as indicated in the submitted Activity Reports.
3. **Exclusion criteria.** Activities with inaccessible narrative reports or evidence links were excluded from this consolidated report. Activities that did not specify any SDG—either because the SDG item was left blank or a different form without an SDG field was used—were also excluded from the consolidation.

Table 1 presents the list of Annual Reports that served as the primary data sources for consolidating SDG-aligned initiatives across various university units for AY 2024-2025.

RESULTS AND DISCUSSIONS

Table 2 summarizes the total number and percentage distribution of activities implemented by SMU under each of the 17 SDGs.

Table 2. Implementation of Aligned Activities by SDG, AY 2024–2025

Sustainable Development Goals	Number of Activities Implemented	Percent
SDG 1: No Poverty	15	1.8%
SDG 2: Zero Hunger	13	1.6%
SDG 3: Good Health and Well-being	56	6.8%
SDG 4: Quality Education	346	42%
SDG 5: Gender Equality	11	1.3%
SDG 6: Clean Water and Sanitation	14	1.7%
SDG 7: Affordable and Clean Energy	7	0.8%
SDG 8: Decent Work and Economic Growth	40	4.8%
SDG 9: Industry, Innovation and Infrastructure	61	7%
SDG 10: Reduced Inequality	13	1.6%
SDG 11: Sustainable Cities and Communities	33	4%
SDG 12: Responsible Consumption and Production	22	2.7%
SDG 13: Climate Action	30	3.6%
SDG 14: Life Below Water	2	0.2%
SDG 15: Life on Land	31	3.8%
SDG 16: Peace, Justice and Strong Institutions	27	3.3%
SDG 17: Partnership for the Goals	103	13%
Total	824	100%

Table 2 presents the distribution of SMU's SDG-aligned activities for AY 2024–2025, documenting a total of **824 activities** implemented across the 17 SDGs. The data indicate that SMU carried out initiatives addressing all SDGs during the reporting period, demonstrating the University's comprehensive commitment to advancing sustainable development through education, research, and community engagement.

Table 3 ranks the SDGs based on the frequency of activities implemented, highlighting the most and least prioritized goals during the academic year.

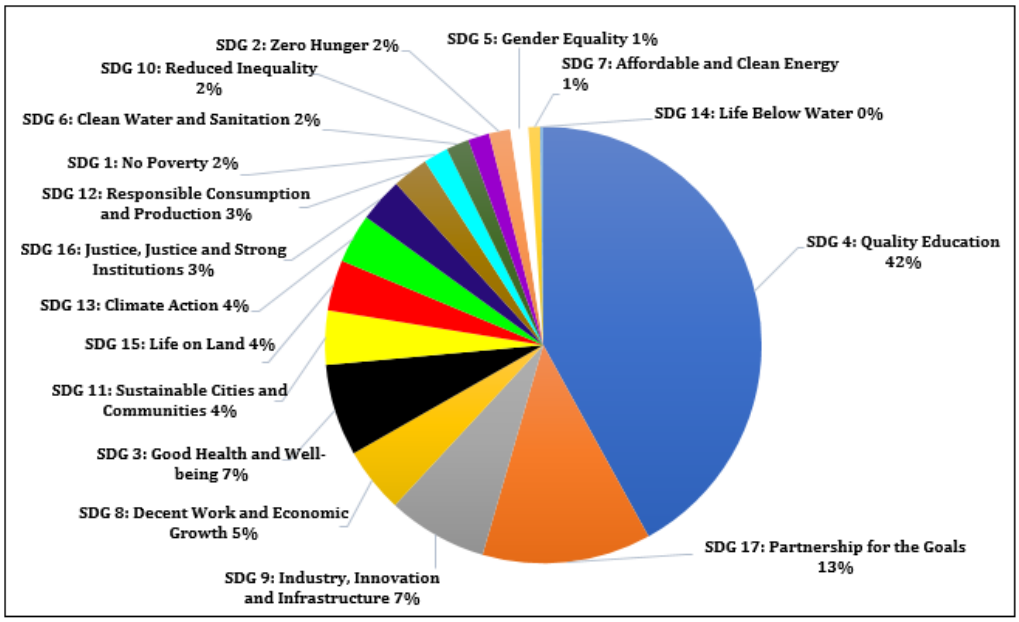

Table 3. Ranking of Implemented SDG-Aligned Activities, AY 2024–2025

Ranking	Sustainable Development Goals	No. Activities Implemented	Percentage
1st	SDG 4: Quality Education	346	42%
2nd	SDG 17: Partnership for the Goals	103	13%
3rd	SDG 9: Industry, Innovation and Infrastructure	61	7%
4th	SDG 8: Decent Work and Economic Growth	40	4.8%
5th	SDG 3: Good Health and Well-being	56	6.8%
6th	SDG 11: Sustainable Cities and Communities	33	4%

7th	SDG 15: Life on Land	31	3.8%
8th	SDG 13: Climate Action	30	3.6%
9th	SDG 16: Justice, Justice and Strong Institutions	27	3.3%
10th	SDG 12: Responsible Consumption and Production	22	2.7%
11th	SDG 1: No Poverty	15	1.8%
12th	SDG 6: Clean Water and Sanitation	14	1.7%
13th	SDG 10: Reduced Inequality	13	1.6%
14th	SDG 2: Zero Hunger	13	1.6%
15th	SDG 5: Gender Equality	11	1.3%
16th	SDG 7: Affordable and Clean Energy	7	8%
17th	SDG 14: Life Below Water	2	0.2%
Total		824	100%

Based on Table 3, the majority of initiatives were concentrated under SDG 4: Quality Education (42%), reflecting the University's strong emphasis on its educational mission. This was followed by SDG 17: Partnership for the Goals (13%), highlighting SMU's active collaboration with local and international partners, and SDG 9: Industry, Innovation and Infrastructure (7%), emphasizing innovation-driven engagement.

Meanwhile, fewer activities were reported under SDG 7: Affordable and Clean Energy (0.8%) and SDG 14: Life Below Water (0.2%), suggesting areas where future initiatives may be strengthened. Overall, the distribution demonstrates SMU's commitment to advancing quality education and sustainable partnerships, while indicating opportunities to expand engagement in environmental and energy-related goals.

(078) 392-8103

SDG 12: Responsible Consumption and Production	2nd	CNS	6	0.7%
	3rd	SHANS	5	0.6%
SDG 13: Climate Action	1st	CNS	14	1.7%
	2nd	SHANS	9	1.1%
	3rd	SAB	2	0.2%
SDG 14: Life Below Water	1st	SAB, IMO	1	0.1%
SDG 15: Life on Land	1st	CNS	11	1.3%
	2nd	SHANS	8	1%
	3rd	CEIPSC	5	0.6%
SDG 16: Peace, Justice, and Strong Institutions	1st	SAB	8	1%
	2nd	CNS	5	0.6%
	3rd	CEIPSC	4	0.4%
SDG 17: Partnership for the Goals	1st	CNS	25	3%
	2nd	SHANS	18	2.1%
	3rd	PERIO	15	1.8%

As shown in Table 4, CEIPSC, CNS, and SHANS emerged as the most consistent SDG champions, appearing prominently across multiple goals. In particular, CNS demonstrated significant involvement, ranking first in six SDGs, including SDG 13: Climate Action (14 activities, 1.7%) and SDG 17: Partnerships for the Goals (25 activities, 3%).

Quality Education (SDG 4) recorded the highest activity frequencies, led by PERIO with 59 activities (7.1%), followed by IDQAO (6.3%) and CNS (4.6%)—showing the university's strong alignment with its educational mission. Similarly, SDG 9: Industry, Innovation, and Infrastructure and SDG 13: Climate Action also had notable contributions from multiple units, indicating institutional efforts toward innovation and sustainability.

Table 5: Implementation of SDG-Aligned Programs and Activities by Category, AY 2024–2025

Description of Activities	Sample Programs / Activities Conducted
SDG 1: No Poverty (15 or 1.8%)	
 Aims to eradicate extreme poverty and reduce the proportion of people living below the national poverty line through access to basic resources, services, and social protection.	**Hunger Alleviation Program** Pamaskong Handog- Gift Giving ***(HRDO)*** **Poverty Alleviation Program (Entrepreneurial and Technical Skills Development)** Entrepreneurship and Economic Development ***(SAB)*** Financial Literacy ***(CEIPSC)*** ILAW Project ***(CEIPSC)*** Practical Solutions for Common Problems ***(CEIPSC)*** Empowering Financial Wellness ***(CEIPSC)*** TESDA Training Program ***(CEIPSC)***

Table 5 consolidates the major programs, projects, and activities implemented under the SDG framework, organized by thematic categories and alignment areas. Each SDG entry includes its thematic focus, the number and percentage of activities implemented, and sample programs or initiatives conducted by various university units. The table highlights how SMU integrates sustainability principles into its academic, research, community engagement, and operational activities, contributing to global and local development priorities.

The data indicate that SMU's initiatives are strongly concentrated on SDG 4: Quality Education, which accounts for 42% (346 activities) of all SDG-aligned programs. This reflects the university's core mission of promoting accessible, high-quality, and transformative education. Other highly represented goals include SDG 17: Partnerships for the Goals (13%), underscoring the importance of collaboration and global engagement, and SDG 9: Industry, Innovation, and Infrastructure (7%), demonstrating the institution's commitment to fostering innovation and technological advancement. While SDG 4 dominates, SMU's programs also encompass all 17 goals—ranging from poverty reduction (SDG 1) and good health and well-being (SDG 3) to climate action (SDG 13) and life on land (SDG 15)—indicating a holistic approach to sustainability. Overall, the table shows that SMU strategically aligns its academic and community engagements with the UN 2030 Agenda, positioning education as a catalyst for sustainable development across multiple sectors.

Table 6 presents the distribution of SDG-aligned activities implemented by the different units of SMU for AY 2024–2025. CNS recorded the highest number of SDG activities with 132 implementations (16%), followed by SHANS with 110 activities (13%), and SAB with 95 activities (12%). These three units collectively accounted for 41% of the total initiatives, indicating their leading roles in advancing SMU's SDG agenda. Meanwhile, several offices, such as SHS, ULRC, IAO, CAO, TTBDO, PDPO, CCF, SPDO, and the Scholarship Office, each contributed one activity (0.1%), showing that while participation varied, all units contributed to the university's overall SDG efforts.

Note: Some activities were repeatedly recorded due to units indicating numerous (more than 3) SDGs for a single activity conducted.

This table presents the distribution of SDG-aligned activities implemented by various units of Saint Mary's University (SMU) for AY 2024–2025. Each unit's percentage contribution to the total number of SDG-related activities is shown, along with the top three SDGs they most frequently supported. The ranking per SDG indicates the areas where each unit demonstrated the highest alignment and engagement.

The data reveal that all SMU units contributed to advancing the 17 Sustainable Development Goals, with varying degrees of engagement. The Center of Natural Sciences (CNS) emerged as the top contributor, accounting for 16% of total SDG activities, followed by SHANS (13%), and SAB (12%).

Across all units, SDG 4: Quality Education consistently ranked first, demonstrating SMU's strong institutional focus on educational advancement and learning initiatives. Other frequently aligned goals include SDG 17: Partnerships for the Goals and SDG 9: Industry, Innovation, and Infrastructure, indicating collaborative and innovation-driven initiatives.

Overall, the distribution underscores SMU's university-wide commitment to sustainable development, with education serving as the central pillar of its contributions.

CONCLUSION

The findings of this report affirm Saint Mary's University's steadfast commitment to advancing the United Nations Sustainable Development Goals (SDGs) through its academic, research, and community engagement initiatives. For A.Y. 2024–2025, the University successfully implemented a diverse range of SDG-aligned activities across all 17 goals, demonstrating a holistic and institution-wide approach to sustainable development.

Among the goals, SDG 4: Quality Education emerged as the most actively pursued, reflecting SMU's enduring mission to promote accessible, inclusive, and transformative education. Other goals, such as SDG 17: Partnerships for the Goals and SDG 3: Good Health and Well-being, also ranked prominently, underscoring the University's emphasis on collaboration, health promotion, and community welfare. The analysis also highlights the significant contributions of both academic and administrative units, with several offices consistently serving as champions of sustainability-driven programs.

Collectively, these efforts underscore SMU's growing role as a **catalyst for social transformation**, integrating sustainability principles into its institutional culture and operational practices. By aligning its initiatives with the global SDG framework, SMU continues to nurture responsible citizens, empower communities, and strengthen its identity as a Marian institution committed to faith, excellence, and service. Moving forward, the University is poised to build on these accomplishments by deepening inter-unit collaboration, enhancing impact assessment mechanisms, and broadening partnerships that advance the shared pursuit of a sustainable and equitable future for all.

Limitations of the Report

This consolidated report on SMU's SDG initiatives is subject to several methodological and structural limitations that may have affected the accuracy and comprehensiveness of the data. These limitations include:

1. **Exclusion of Certain Activities.** Some activities were excluded because they lacked identified SDG alignments. Various formats of Activity Narrative Reports were used, and several reports either lacked SDG alignment entries or left them blank.
2. **Inaccessible Report Links.** Certain narrative report links embedded in the Annual Reports could not be accessed due to technical restrictions or errors, preventing data verification or inclusion.
3. **Reliance on Self-Reported SDG Alignment.** The SDG alignment of each activity was self-declared by the implementing unit, which introduces the possibility of subjective interpretation or over-alignment. This may have inflated the reported figures for certain goals.
4. **Risk of Activity Duplication or Inflation.** The methodology permitted multiple SDG alignments per activity, which may have resulted in duplication when activities were recorded under more than three SDGs. Consequently, the total counts for frequently cited goals—such as SDG 4 and SDG 17—may have been inflated, making it difficult to determine the primary focus of some activities.
5. **Scope Limited to Activity Count, Not Impact.** This report consolidates the number and types of SDG-aligned activities (outputs), as described in the methodology, with a focus on scope and diversity. It does not assess the actual outcomes or long-term impacts of these activities on communities or the environment (e.g., reporting that a feeding program occurred without measuring its sustained effect on student nutrition).

Recommendations

To enhance the accuracy, consistency, and analytical value of future SDG initiative reports, the following measures are recommended:

1. **Standardize the Activity Narrative Report Template.** Adopt a uniform template—preferably **EOMS-QAO-FO-008**—and ensure that all fields are completely filled out, especially those related to SDG alignment and identified beneficiaries.
2. **Revise the Activity Narrative Report Form.** Limit the number of SDG alignments per activity to a maximum of **three goals**. This revision will help prevent data inflation for commonly aligned goals (e.g., SDG 4 and SDG 17) and promote more accurate identification of each activity's primary alignment.
3. **Ensure Proper SDG Alignment.** Review SDG indicators regularly to guide proper activity alignment. Artificial Intelligence (AI) tools may be utilized to assist in determining appropriate SDG matches for reported activities.
4. **Properly Link Evidence in Annual Reports.** Verify that all narrative report links are functional and accessible to facilitate transparent documentation and data validation.
5. **Assign an SDG Champion per Unit.** Designate unit-level SDG champions responsible for monitoring and coordinating initiatives based on each unit's thrusts and priorities, promoting accountability and focused engagement.
6. **Integrate Standardized Impact Metrics.** Develop and adopt a standardized matrix for reporting quantifiable outcome indicators (e.g., number of beneficiaries, dissemination plans, or measurable impacts). This will allow the university to move beyond activity counts toward evidence-based impact assessment.

SDG 11: Sustainable Cities and Communities

11.2 Support of Arts and Heritage

11.2.1 The University provides public access to buildings, monuments, or natural heritage landscapes of cultural significance

Saint Mary's University opens its buildings and facilities to the public under established institutional and safety guidelines. External groups can rent campus venues for educational, civic, religious, or athletic activities, with standard rental rates or community discounts applied (p. 1, 2, 5). For example, the DepEd Schools Division of Nueva Vizcaya leased the Sacred Heart Center for a Management Committee meeting (p. 1, 4) and the Tonus Gym for its 4th ManCom session with 297 participants (p. 2, 3). Furthermore, the Diocese of Bayombong Chancery Office utilized the Sacred Heart Center for a three-day Diocesan Pastoral Planning event for 260 delegates (p. 5), while public personnel rented the Tonus Gym for basketball sessions (p. 7). Monitored through facility request forms, official correspondence, and accounting records, these open spaces highlight SMU's commitment to community integration and cross-sector collaboration.

11.2.2 The University provides public access to libraries, including books and publications

Saint Mary's University opens its libraries, books, and publications to public researchers and outside library users, providing systematic public access beyond its internal academic community (p. 7, 8). Under its established institutional accessibility guidelines, graduate and undergraduate students or researchers from external schools are permitted to use the library's physical facilities, reading rooms, and print collections upon securing permissions from the ULRC staff and paying a nominal visitor fee of ₱100.00 or ₱50.00 per visit (p. 8). To carefully monitor participation, track user volumes, and evaluate service performance, the university utilizes a digital tapping system for internal student entries (p. 8, 19) paired with a structured *Logbook for Outside Library Users* to record walk-in visitor profiles, home institutions, contact data, and exact visit times (p. 20). These policies verify SMU's commitment to public knowledge sharing and inclusive education.

11.2.3 The University provides public access to museums, exhibition spaces/galleries, and works of art and artifacts

Saint Mary's University provides systematic public access to its Museo de Maria and cultural galleries to promote heritage preservation (p. 1, 4, 11). Governed by the CEIPSC, the museum opens historical collections, artifacts, and specialized exhibits—such as the CICM History and Bungkós displays—to the broader community (p. 1, 3, 4). SMU regularly hosts open public gatherings, including its structural launch for regional guests (p. 4), the university's 96th Founding Anniversary for alumni and retirees (p. 7, 8), and international conferences (p. 11). Public engagement is expanded via free community art programs, such as the *En Plein Air* painting workshops held on the museum grounds (p. 9, 11, 12, 19). Between October and March, the university welcomed thousands of walk-in visitors, utilizing robust analytical logbooks to monitor guest volumes, gender distribution, and indigenous population metrics (p. 13, 14, 15).

11.2.4 The University provides free public spaces and green spaces

Saint Mary's University provides community-friendly public access to its open spaces and green landscapes under structured institutional guidelines (p. 3). The general campus policy allows external individuals and organizations to use its recreational areas as long as they do not disrupt ongoing educational programs (p. 3). The public can freely access multiple designated green areas across the campus grounds, including San Lorenzo Ruiz Park (p. 6), Marian Park (p. 7), Verbist Park (p. 8), and the Saint Mary's University Oval, the latter being entirely free for outside users on regular weekdays (p. 1, 5). To preserve these ecological spaces, all visitors are required to follow the university's Clean, Healthy, Safe & Friendly (CHSF) program, which mandates a strict ban on smoking, single-use plastics, and styrofoam (p. 3). Formal group events are easily scheduled via request forms submitted to the VPA and accounting offices (p. 4).

11.2.5 The University contributes to local arts, in terms of the number of annual public performances of university choirs, theater groups, orchestras, etc

Saint Mary's University actively contributes to local arts through regular public performances by its premier cultural groups. The SMU Chorale actively engages the community through public events like the "Concert-for-a-Cause" to fund museum preservation (p. 10), the "Pag-ibig sa Musika" Valentine concert (P. 34), and specialized showcases at international conferences (P. 35). Meanwhile, the university's theater group, SMU Teatro Publiko, champions socially conscious performance art by premiering original productions like *Pintig* and *Patintero sa Laot* under their groundbreaking "Dula-Tinig" project designed to empower marginalized and indigenous sectors (p. 11, 32). Additionally, cultural groups like SMU BIBAK showcase traditional dances at

municipal exhibitions and student leadership conferences (pp. 24, 30). These diverse, recurring musical and theatrical showcases directly enrich the local arts scene and foster wider public cultural appreciation.

11.2.6 The University delivers projects to record and preserve intangible cultural heritage such as local folklore, traditions, language and knowledge, including the heritage of displaced communities

SMU delivers structural projects to record and preserve intangible cultural heritage and indigenous knowledge through its dedicated Community Engagement and Indigenous Peoples Studies Center (CEIPSC) (p. 1). A core initiative is the *Pansin-uuh'mu-an* (Indigenous Peoples Learning Hub), a centralized facility built for the education, research, and documentation of indigenous traditions for students, scholars, and community stakeholders (p. 2). During its month-long heritage celebration, the university recorded and showcased living traditions, including performing an authentic *Ayangan Ifugao thanksgiving ritual known as Ipad* by culture bearers (p. 17) and hosting community forums detailing indigenous land rights and cultural challenges (p. 12). Furthermore, SMU drives institutional preservation across all basic and tertiary sectors by organizing cultural performance showcases (p. 18), ethnic attire days (p. 27), and localized multi-lingual logo and essay competitions (p. 13, 25).

11.3 Expenditures on arts and heritage

11.3.1 University expenditure

268,422,041

11.3.2 University expenditure on arts and heritage

182,496

11.4 Sustainable practices

11.4.1 The University measures and sets targets for more sustainable commuting

Saint Mary's University actively measures campus transit data and sets targets for sustainable commuting to reduce its carbon footprint under indicator 11.4.1 (p. 1, 10). To limit fossil-fuel vehicles (ICEs) by at least 10% annually, SMU runs a strict RFID vehicle pass system monitored by *ZKBioSecurity* tracking databases (p. 4, 5, 6, 10). This strategy reduced registered ICE cars, motorcycles, and tricycles from 698 in AY 2023–2024 down to 542 in AY 2024–2025, while expanding Zero-Emission Vehicles (ZEVs) like bicycles and e-vehicles to 25 registrations by AY 2025–2026 (p. 10). Furthermore, SMU institutionalized a *No Vehicle/Motorcycle Day* every first Wednesday of the month to mandate walking, cycling, or public transport across all campuses (p. 2, 3). To anchor this shift, the university provides free pass registration for eco-friendly transit (p. 4), builds exclusive bicycle parking racks (p. 8), and supplies free-use bicycles at the SMU Balai na Alumni (p. 8).

11.4.2 The University undertakes actions to promote the % of more sustainable commuting

Saint Mary's University actively promotes and increases the percentage of sustainable commuting through concrete infrastructure, financial incentives, and strict institutional policies (pp. 1, 3, 5). Under its Environmental Management Program framework, SMU enforces a monthly "No Vehicle/Motorcycle Day" that bars fossil-fuel vehicles to mandate walking, biking, or public transit across its campuses (pp. 1, 2, 4). To support non-motorized transport, the university provides dedicated physical infrastructure, including "Exclusive Parking for Bikes" zones equipped with secure campus storage racks (p. 3). Furthermore, SMU financially incentivizes sustainable travel by offering free vehicle pass registration and sticker badges exclusively for bicycles and Zero-Emission Vehicles (ZEVs) through its online application portal (pp. 5, 7). Distributed via public advisory campaigns, these integrated regulations successfully drive carpooling and green mobility shifts (p. 4).

11.4.3 The University promotes or allows telecommuting or remote working for employees as a matter of policy or standard practice, and offers a condensed working week to reduce employee commuting

Saint Mary's University institutionalizes telecommuting, remote operations, and flexible schedule adjustments to mitigate hazardous commuting during emergencies. Under VPA Circular No. 26, when Tropical Cyclone Wind Signal No. 2 is raised, teachers and Learning Area Coordinators are explicitly permitted to conduct their online classes from home (p. 1). To minimize commuting disruptions during crises, the policy allows a modified workweek: if a principal reschedules suspended face-to-face classes to Saturday, standard weekday office work is suspended and replaced directly by the Saturday shift (p. 1). Furthermore, during heavy flooding, severe earthquakes, or acutely toxic air quality conditions, SMU mandates a systematic transition to alternative delivery modes—establishing online synchronous or asynchronous classes as the preferred framework for higher education to keep employees safely off local roads (pp. 2, 3, 4).

11.4.4 The University provides affordable housing for employees

SMU provides financial mechanisms to secure affordable housing for employees through structured housing assistance loans managed by its Treasury and Accounting Office (pp. 1, 2). Under its institutional guidelines, permanent personnel can apply for dedicated salary or retirement loans specifically earmarked for essential shelter needs, such as "house replacement" and "home improvement" (pp. 1, 2). Eligible long-term staff members with over 10 years of service can access substantial internal financing, leveraging up to 75% of their accumulated earned service benefits to directly fund their housing projects (pp. 1, 2). Evaluated on the applicant's net take-home pay and capacity, these institutional loans are endorsed by the Vice President for Finance/Treasurer and approved by the University President (pp. 1, 2). They feature flexible, employee-friendly repayment periods spanning 10 to 12 months collected automatically via direct monthly payroll amortizations (pp. 1, 2).

11.4.5 The University provides affordable housing for students

Saint Mary's University provides affordable on-campus housing options and systematically monitors off-campus residential safety for its community. Through the university-managed Inang Maria Ladies Dormitory, SMU offers highly economical housing assets with monthly per-head rates ranging from ₱1,680.00 for common rooms to ₱3,360.00 for private spaces, inclusive of water and electricity utilities (pp. 13, 14). This institutional facility maintains a 68-bed capacity across 15 rooms, with occupancy limited to university personnel under its structured room assignments (p. 14). To further support the welfare of its community living off-campus, the Associate Deans of Student Affairs and Services (ADSAS) govern the Marian Boarders' Organization (MBO) to bridge administrative communication (p. 1) and conduct multi-day joint visitations with local barangay officials to audit external boarding houses for alignment with provincial safety ordinances (p. 9).

11.4.6 The University prioritizes pedestrian access on campus

Saint Mary's University systematically prioritizes pedestrian access and safe mobility across all institutional levels. Managed via specialized pedestrian traffic maps for its College, Junior High, and Grade School sectors, SMU guarantees pedestrian right-of-way through prominent on-campus crosswalk installations and dedicated security personnel assistance (pp. 1, 2, 4, 31). Interconnected networks of lit and covered catwalk corridors, such as the *Catwalk Library* and *TTBDO Catwalk*, offer protected navigation pathways across all main buildings (pp. 18, 19, 20, 30). Furthermore, the university enforces universal PWD accessibility by building compliant structural ramps with protective handrails across critical hubs, including the Main Library, Teachers' Center, and the Godfrey Lambrecht Building (pp. 8, 9, 11, 12, 16). These infrastructure measures actively encourage eco-friendly campus walking while securing pedestrian safety during day and night operations (p. 18).

11.4.7 The University works with local authorities to address planning issues and development, including ensuring that local residents are able to access affordable housing

Saint Mary's University collaborates closely with local authorities to manage urban mobility, regional safety, and public planning. Working with the MLGU and District IV barangay officials under DILG guidelines, SMU-ADSAS spearheads joint road-clearing operations to eliminate obstructions, stop improper sidewalk parking, and ensure pedestrian safety on community roads (pp. 7, 12, 13). To drive macro-level urban ordering, the university president participates in municipal transportation hearings with the Sangguniang Bayan to evaluate and deploy extensive one-way traffic regulations and side-parking ordinances on streets surrounding the campus (pp. 1, 3, 4). Furthermore, SMU establishes cross-sector alliances through the *Pasakay Project*, partnering with local authorities and Gates 1, 2, and 3 Tricycle Owners and Drivers Associations (TODA) to formalize strict service frameworks, enforce standardized transit fare matrices, and mandate driver compliance (pp. 5, 7, 21).

11.4.8 The University builds new buildings to sustainable standards

Saint Mary's University aligns its structural engineering and developments with sustainable standards and seismic safety codes. Administered by the PPPDMO, recent institutional constructions are evaluated against the National Structural Code of the Philippines (NSCP) and ACI mandates to eliminate plan and vertical irregularities (p. 1, 8, 16, 38).

For instance, structural audits of multi-use educational buildings built in 2016 and 2018 confirm compliance with the 2010 and 2015 NSCP editions, integrating advanced seismic confinement zones and close hoop spacing to withstand high drift demands (pp. 8, 15, 38). Furthermore, SMU backs its sustainability commitments by installing universal PWD-accessible ramps with handrails on major new structures, ensuring compliance with national social inclusion codes and using rigid, continuous concrete diaphragms to maximize structural lifespan (pp. 8, 11, 21).

11.4.9 The University builds on brownfield sites, where possible

Saint Mary's University actively redevelops within its established urban footprint by executing new constructions on brownfield sites. Rather than expanding into undeveloped green spaces, the university focuses expansion directly inside its pre-built campus boundaries, a practice verified by its June 2024 Geotechnical Investigation Report (pp. 1, 3, 4). The field testing deployed subsurface wash-boring drills for two specific boreholes, BH-1 and BH-2, placed immediately adjacent to existing multi-story educational structures and active rooftop solar panel configurations (p. 4, 18). Laboratory engineering analyses down to 15 meters indicate robust layers of stiff sandy silt, medium dense silty sand, and very dense silty sandy gravel, proving the tested ground is highly stable and can support shallow foundations with no extensive soil remediation required (pp. 6, 12, 13). This localized data allows SMU to sustainably maximize its urban footprint (pp. 3, 18).

4TH QUARTER NATIONAL SIMULTANEOUS EARTHQUAKE DRILL

1. Title of the Activity : 4th Quarter National Simultaneous Earthquake Drill
   Date : November 28, 2024
   Venue : Saint Mary's University

2. Organizers : Saint Mary's University
   Cooperating Organizations, if any

3. Beneficiaries : SMU Students and Staff

4. Objectives of the Activity : To assess and evaluate the preparedness of the SMU students as well as the faculty and staff in times of earthquake.

5. Participants : SMU Faculty and Staff, Students, MERT, ROTC, SHERT

6. Proceedings :

Earthquake drills have been a common practice in preparation for real earthquake scenarios, aimed at teaching participants the muscle memory of what to do during such events. In line with this, the Office of the Vice President for Administration, in cooperation with the Safety and Pollution Control Office (SPCO), NSTP Office, MERT, and SHERT, planned the Fourth Quarter National Simultaneous Earthquake Drill (NSED) on November 28, 2024.

Following the planning meeting, the Marian Emergency Response Team (MERT), led by Ms. Phymoella Xianne Arellano, along with MERT Senior and Junior members and the Senior High Emergency Response Team (SHERT), conducted another meeting to prepare for the drill. The agenda included preparing necessary materials and equipment, designating tasks, and selecting participants for the 4th Quarter NSED. After careful consideration, a total of 10 MERT Senior and Junior members, 25 MERT Trainees, and 12 SHERT members were chosen to participate in the event. These participants underwent refresher training and simulations organized and observed by MERT alumnus Ms. Emilia Jade Dickson, RN.

At exactly 1411H, the bell rang, marking the beginning of the NSED. Participants observed the "Duck, Cover, and Hold" technique before proceeding to the university grounds. The medical team was divided into four teams—Alpha, Bravo, Charlie, and Delta. Teams Alpha and Bravo were tasked with retrieving the make-shift victims from the AT Building and Apo Philo Building, respectively, while Teams Charlie and Delta stood by for real-life victims.

Moreover, both make-shift victims were safely transported to the medical booth in under five minutes and were evaluated by the MDRRMO, Red Cross, and PDRRMO. Additionally, two real-life victims were assessed, treated, and referred to the University Clinic

Furthermore, after the event, a meeting was held with the Vice President for Administration, SPCO Head, NSTP Head, MERT President, SHERT Representative, and spectators to discuss the results of

the 4th Quarter NSED. Thanks to the cooperation of Saint Mary's University, the event received a "very satisfactory" overall assessment from the spectators.

In conclusion, the successful execution of the Fourth Quarter National Simultaneous Earthquake Drill at Saint Mary's University highlighted the effectiveness of collaboration between various departments and teams in ensuring a well-coordinated emergency response. The event not only reinforced the importance of preparedness but also demonstrated the university's commitment to maintaining the safety and well-being of its community. The "very satisfactory" assessment from the spectators further affirmed the value of continuous training and the university's readiness to handle potential real-life emergencies. This drill serves as a reminder of the crucial role that preparedness plays in safeguarding lives during unforeseen natural disasters.

7. Recommendations/Observations :

A. To have a transport vehicle that is accessible and safe for patient-transport.
