Consolidation of SMU's Sustainable Development Goals (SDG) Initiatives for A.Y. 2024-2025
Date: October 27, 2025

Abstract
This report presents a comprehensive analysis of Saint Mary's University's (SMU) initiatives aligned with the United Nations Sustainable Development Goals (SDGs) for Academic Year 2024–2025. Data were gathered from 34 Annual Reports sourced from the Institutional Development and Quality Assurance Office (IDQAO) DocuHub. A total of 824 SDG-aligned activities were documented across all 17 goals, reflecting the University's sustained integration of sustainability principles in instruction, research, community engagement, and governance. Results reveal that SDG 4: Quality Education recorded the highest number of initiatives, followed by SDG 17: Partnerships for the Goals and SDG 3: Good Health and Well-being, indicating the University's strong focus on educational advancement, collaboration, and community welfare. Unit-level analysis identified the College of Natural Sciences (CNS), the School of Health and Natural Sciences (SHANS), and the School of Accountancy and Business (SAB) as leading contributors to SDG implementation. Overall, the report underscores SMU's institutional commitment to fostering transformative education and sustainable community development through active engagement in the global SDG agenda.

INTRODUCTION

Higher Education Institutions (HEIs), such as Saint Mary's University (SMU), play a key role in advancing the United Nations' 17 Sustainable Development Goals (SDGs) through their commitment to promoting balanced economic growth, social inclusion, and environmental sustainability. Guided by their core mandates of instruction, research, and community engagement, HEIs integrate sustainability across disciplines, produce evidence-based innovations for sustainable transitions, and promote responsible governance and policy advocacy in partnership with their stakeholders.
SMU exemplifies this institutional commitment by embedding the SDGs into its academic and operational frameworks. As a higher education institution in Nueva Vizcaya with both local and international linkages, the University implements initiatives that address critical areas, such as poverty alleviation, quality education, health and well-being, gender equality, environmental protection, and social justice. By aligning its initiatives with the SDGs, SMU reaffirms its solidarity with the global community in addressing urgent developmental and ecological challenges. This commitment resonates with the University's adherence to the principles of integral ecology and environmental stewardship, as articulated in *Laudato Si'*.

This report consolidates SMU's SDG-aligned initiatives for Academic Year 2024–2025. The data were sourced from 34 Annual Reports published in the SMU Institutional Development and Quality Assurance Office (IDQAO) Docuhub. The report presents the scope and diversity of these initiatives, establishing a benchmark for institutional progress and a framework for continuous enhancement of the University's contribution to sustainable development.

METHODOLOGY

The data were gathered from the Annual Reports available on the SMU IDQAO DocuHub, which contains a total of 37 reports. However, only 34 of these were utilized as data sources, as three reports (PPPDMO, COL, SGS) were inaccessible during the data collection from Sept. 11, 2025 to Oct. 27, 2025.

(078) 392-8103

Furthermore, the consolidation of the SDGs was based on the identified SDG alignments indicated in the *Activity Narrative Report Form* (EOMS-QAO-FO-008, Rev.00) attached as evidence in the Annual Reports. The following parameters guided the data-gathering process:

1. **Source of data.** Information was obtained from the accomplished *Activity Narrative Report Form* (EOMS-QAO-FO-008, Rev.00) attached to the 34 Annual Reports.
2. **Multiple alignment.** Certain activities were mapped to more than one SDG, as indicated in the submitted Activity Reports.
3. **Exclusion criteria.** Activities with inaccessible narrative reports or evidence links were excluded from this consolidated report. Activities that did not specify any SDG—either because the SDG item was left blank or a different form without an SDG field was used—were also excluded from the consolidation.

Table 1 presents the list of Annual Reports that served as the primary data sources for consolidating SDG-aligned initiatives across various university units for AY 2024-2025.

RESULTS AND DISCUSSIONS

Table 2 summarizes the total number and percentage distribution of activities implemented by SMU under each of the 17 SDGs.

Table 2. Implementation of Aligned Activities by SDG, AY 2024–2025

Sustainable Development Goals	Number of Activities Implemented	Percent
SDG 1: No Poverty	15	1.8%
SDG 2: Zero Hunger	13	1.6%
SDG 3: Good Health and Well-being	56	6.8%
SDG 4: Quality Education	346	42%
SDG 5: Gender Equality	11	1.3%
SDG 6: Clean Water and Sanitation	14	1.7%
SDG 7: Affordable and Clean Energy	7	0.8%
SDG 8: Decent Work and Economic Growth	40	4.8%
SDG 9: Industry, Innovation and Infrastructure	61	7%
SDG 10: Reduced Inequality	13	1.6%
SDG 11: Sustainable Cities and Communities	33	4%
SDG 12: Responsible Consumption and Production	22	2.7%
SDG 13: Climate Action	30	3.6%
SDG 14: Life Below Water	2	0.2%
SDG 15: Life on Land	31	3.8%
SDG 16: Peace, Justice and Strong Institutions	27	3.3%
SDG 17: Partnership for the Goals	103	13%
Total	824	100%

Table 2 presents the distribution of SMU's SDG-aligned activities for AY 2024–2025, documenting a total of **824 activities** implemented across the 17 SDGs. The data indicate that SMU carried out initiatives addressing all SDGs during the reporting period, demonstrating the University's comprehensive commitment to advancing sustainable development through education, research, and community engagement.

Table 3 ranks the SDGs based on the frequency of activities implemented, highlighting the most and least prioritized goals during the academic year.

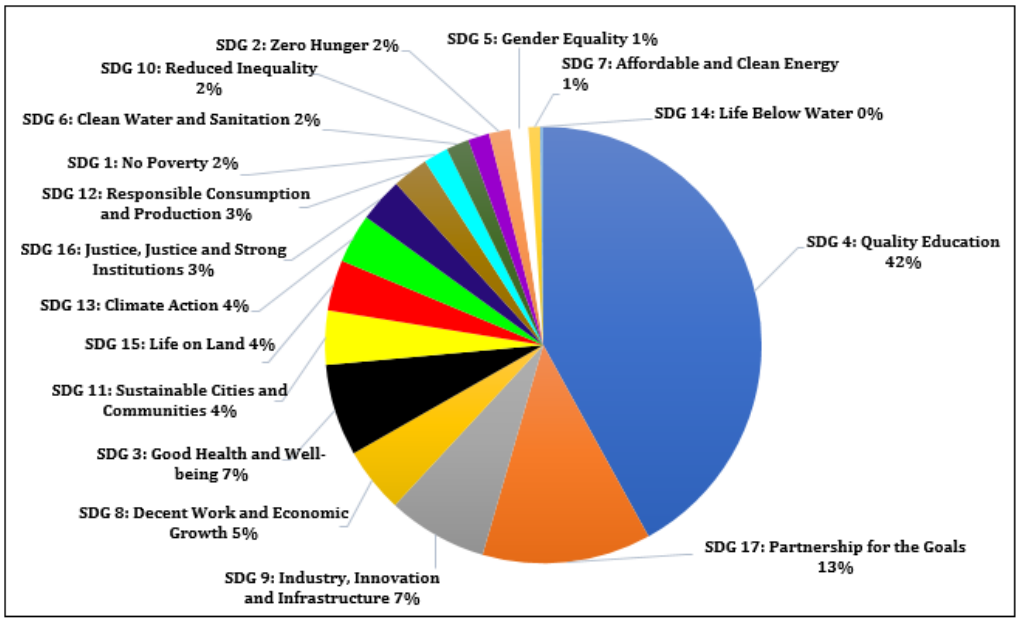

Table 3. Ranking of Implemented SDG-Aligned Activities, AY 2024–2025

Ranking	Sustainable Development Goals	No. Activities Implemented	Percentage
1st	SDG 4: Quality Education	346	42%
2nd	SDG 17: Partnership for the Goals	103	13%
3rd	SDG 9: Industry, Innovation and Infrastructure	61	7%
4th	SDG 8: Decent Work and Economic Growth	40	4.8%
5th	SDG 3: Good Health and Well-being	56	6.8%
6th	SDG 11: Sustainable Cities and Communities	33	4%

7th	SDG 15: Life on Land	31	3.8%
8th	SDG 13: Climate Action	30	3.6%
9th	SDG 16: Justice, Justice and Strong Institutions	27	3.3%
10th	SDG 12: Responsible Consumption and Production	22	2.7%
11th	SDG 1: No Poverty	15	1.8%
12th	SDG 6: Clean Water and Sanitation	14	1.7%
13th	SDG 10: Reduced Inequality	13	1.6%
14th	SDG 2: Zero Hunger	13	1.6%
15th	SDG 5: Gender Equality	11	1.3%
16th	SDG 7: Affordable and Clean Energy	7	8%
17th	SDG 14: Life Below Water	2	0.2%
Total		824	100%

Based on Table 3, the majority of initiatives were concentrated under SDG 4: Quality Education (42%), reflecting the University's strong emphasis on its educational mission. This was followed by SDG 17: Partnership for the Goals (13%), highlighting SMU's active collaboration with local and international partners, and SDG 9: Industry, Innovation and Infrastructure (7%), emphasizing innovation-driven engagement.

Meanwhile, fewer activities were reported under SDG 7: Affordable and Clean Energy (0.8%) and SDG 14: Life Below Water (0.2%), suggesting areas where future initiatives may be strengthened. Overall, the distribution demonstrates SMU's commitment to advancing quality education and sustainable partnerships, while indicating opportunities to expand engagement in environmental and energy-related goals.

(078) 392-8103

SDG 12: Responsible Consumption and Production	2nd	CNS	6	0.7%
	3rd	SHANS	5	0.6%
SDG 13: Climate Action	1st	CNS	14	1.7%
	2nd	SHANS	9	1.1%
	3rd	SAB	2	0.2%
SDG 14: Life Below Water	1st	SAB, IMO	1	0.1%
SDG 15: Life on Land	1st	CNS	11	1.3%
	2nd	SHANS	8	1%
	3rd	CEIPSC	5	0.6%
SDG 16: Peace, Justice, and Strong Institutions	1st	SAB	8	1%
	2nd	CNS	5	0.6%
	3rd	CEIPSC	4	0.4%
SDG 17: Partnership for the Goals	1st	CNS	25	3%
	2nd	SHANS	18	2.1%
	3rd	PERIO	15	1.8%

As shown in Table 4, CEIPSC, CNS, and SHANS emerged as the most consistent SDG champions, appearing prominently across multiple goals. In particular, CNS demonstrated significant involvement, ranking first in six SDGs, including SDG 13: Climate Action (14 activities, 1.7%) and SDG 17: Partnerships for the Goals (25 activities, 3%).

Quality Education (SDG 4) recorded the highest activity frequencies, led by PERIO with 59 activities (7.1%), followed by IDQAO (6.3%) and CNS (4.6%)—showing the university's strong alignment with its educational mission. Similarly, SDG 9: Industry, Innovation, and Infrastructure and SDG 13: Climate Action also had notable contributions from multiple units, indicating institutional efforts toward innovation and sustainability.

Table 5: Implementation of SDG-Aligned Programs and Activities by Category, AY 2024–2025

Description of Activities	Sample Programs / Activities Conducted
SDG 1: No Poverty (15 or 1.8%)	
 Aims to eradicate extreme poverty and reduce the proportion of people living below the national poverty line through access to basic resources, services, and social protection.	**Hunger Alleviation Program** Pamaskong Handog- Gift Giving ***(HRDO)*** **Poverty Alleviation Program (Entrepreneurial and Technical Skills Development)** Entrepreneurship and Economic Development ***(SAB)*** Financial Literacy ***(CEIPSC)*** ILAW Project ***(CEIPSC)*** Practical Solutions for Common Problems ***(CEIPSC)*** Empowering Financial Wellness ***(CEIPSC)*** TESDA Training Program ***(CEIPSC)***

Table 5 consolidates the major programs, projects, and activities implemented under the SDG framework, organized by thematic categories and alignment areas. Each SDG entry includes its thematic focus, the number and percentage of activities implemented, and sample programs or initiatives conducted by various university units. The table highlights how SMU integrates sustainability principles into its academic, research, community engagement, and operational activities, contributing to global and local development priorities.

The data indicate that SMU's initiatives are strongly concentrated on SDG 4: Quality Education, which accounts for 42% (346 activities) of all SDG-aligned programs. This reflects the university's core mission of promoting accessible, high-quality, and transformative education. Other highly represented goals include SDG 17: Partnerships for the Goals (13%), underscoring the importance of collaboration and global engagement, and SDG 9: Industry, Innovation, and Infrastructure (7%), demonstrating the institution's commitment to fostering innovation and technological advancement. While SDG 4 dominates, SMU's programs also encompass all 17 goals—ranging from poverty reduction (SDG 1) and good health and well-being (SDG 3) to climate action (SDG 13) and life on land (SDG 15)—indicating a holistic approach to sustainability. Overall, the table shows that SMU strategically aligns its academic and community engagements with the UN 2030 Agenda, positioning education as a catalyst for sustainable development across multiple sectors.

Table 6 presents the distribution of SDG-aligned activities implemented by the different units of SMU for AY 2024–2025. CNS recorded the highest number of SDG activities with 132 implementations (16%), followed by SHANS with 110 activities (13%), and SAB with 95 activities (12%). These three units collectively accounted for 41% of the total initiatives, indicating their leading roles in advancing SMU's SDG agenda. Meanwhile, several offices, such as SHS, ULRC, IAO, CAO, TTBDO, PDPO, CCF, SPDO, and the Scholarship Office, each contributed one activity (0.1%), showing that while participation varied, all units contributed to the university's overall SDG efforts.

Note: Some activities were repeatedly recorded due to units indicating numerous (more than 3) SDGs for a single activity conducted.

This table presents the distribution of SDG-aligned activities implemented by various units of Saint Mary's University (SMU) for AY 2024–2025. Each unit's percentage contribution to the total number of SDG-related activities is shown, along with the top three SDGs they most frequently supported. The ranking per SDG indicates the areas where each unit demonstrated the highest alignment and engagement.

The data reveal that all SMU units contributed to advancing the 17 Sustainable Development Goals, with varying degrees of engagement. The Center of Natural Sciences (CNS) emerged as the top contributor, accounting for 16% of total SDG activities, followed by SHANS (13%), and SAB (12%).

Across all units, SDG 4: Quality Education consistently ranked first, demonstrating SMU's strong institutional focus on educational advancement and learning initiatives. Other frequently aligned goals include SDG 17: Partnerships for the Goals and SDG 9: Industry, Innovation, and Infrastructure, indicating collaborative and innovation-driven initiatives.

Overall, the distribution underscores SMU's university-wide commitment to sustainable development, with education serving as the central pillar of its contributions.

CONCLUSION

The findings of this report affirm Saint Mary's University's steadfast commitment to advancing the United Nations Sustainable Development Goals (SDGs) through its academic, research, and community engagement initiatives. For A.Y. 2024–2025, the University successfully implemented a diverse range of SDG-aligned activities across all 17 goals, demonstrating a holistic and institution-wide approach to sustainable development.

Among the goals, SDG 4: Quality Education emerged as the most actively pursued, reflecting SMU's enduring mission to promote accessible, inclusive, and transformative education. Other goals, such as SDG 17: Partnerships for the Goals and SDG 3: Good Health and Well-being, also ranked prominently, underscoring the University's emphasis on collaboration, health promotion, and community welfare. The analysis also highlights the significant contributions of both academic and administrative units, with several offices consistently serving as champions of sustainability-driven programs.

Collectively, these efforts underscore SMU's growing role as a **catalyst for social transformation**, integrating sustainability principles into its institutional culture and operational practices. By aligning its initiatives with the global SDG framework, SMU continues to nurture responsible citizens, empower communities, and strengthen its identity as a Marian institution committed to faith, excellence, and service. Moving forward, the University is poised to build on these accomplishments by deepening inter-unit collaboration, enhancing impact assessment mechanisms, and broadening partnerships that advance the shared pursuit of a sustainable and equitable future for all.

Limitations of the Report

This consolidated report on SMU's SDG initiatives is subject to several methodological and structural limitations that may have affected the accuracy and comprehensiveness of the data. These limitations include:

1. **Exclusion of Certain Activities.** Some activities were excluded because they lacked identified SDG alignments. Various formats of Activity Narrative Reports were used, and several reports either lacked SDG alignment entries or left them blank.
2. **Inaccessible Report Links.** Certain narrative report links embedded in the Annual Reports could not be accessed due to technical restrictions or errors, preventing data verification or inclusion.
3. **Reliance on Self-Reported SDG Alignment.** The SDG alignment of each activity was self-declared by the implementing unit, which introduces the possibility of subjective interpretation or over-alignment. This may have inflated the reported figures for certain goals.
4. **Risk of Activity Duplication or Inflation.** The methodology permitted multiple SDG alignments per activity, which may have resulted in duplication when activities were recorded under more than three SDGs. Consequently, the total counts for frequently cited goals—such as SDG 4 and SDG 17—may have been inflated, making it difficult to determine the primary focus of some activities.
5. **Scope Limited to Activity Count, Not Impact.** This report consolidates the number and types of SDG-aligned activities (outputs), as described in the methodology, with a focus on scope and diversity. It does not assess the actual outcomes or long-term impacts of these activities on communities or the environment (e.g., reporting that a feeding program occurred without measuring its sustained effect on student nutrition).

Recommendations

To enhance the accuracy, consistency, and analytical value of future SDG initiative reports, the following measures are recommended:

1. **Standardize the Activity Narrative Report Template.** Adopt a uniform template—preferably **EOMS-QAO-FO-008**—and ensure that all fields are completely filled out, especially those related to SDG alignment and identified beneficiaries.
2. **Revise the Activity Narrative Report Form.** Limit the number of SDG alignments per activity to a maximum of **three goals**. This revision will help prevent data inflation for commonly aligned goals (e.g., SDG 4 and SDG 17) and promote more accurate identification of each activity's primary alignment.
3. **Ensure Proper SDG Alignment.** Review SDG indicators regularly to guide proper activity alignment. Artificial Intelligence (AI) tools may be utilized to assist in determining appropriate SDG matches for reported activities.
4. **Properly Link Evidence in Annual Reports.** Verify that all narrative report links are functional and accessible to facilitate transparent documentation and data validation.
5. **Assign an SDG Champion per Unit.** Designate unit-level SDG champions responsible for monitoring and coordinating initiatives based on each unit's thrusts and priorities, promoting accountability and focused engagement.
6. **Integrate Standardized Impact Metrics.** Develop and adopt a standardized matrix for reporting quantifiable outcome indicators (e.g., number of beneficiaries, dissemination plans, or measurable impacts). This will allow the university to move beyond activity counts toward evidence-based impact assessment.

SDG 4: Quality Education

4.2 Proportion of graduates with teaching qualifications

4.2.1 Number of graduates

811

4.2.2 Number of graduates who gained a qualification that entitled them to teach at primary school level

41

4.3 Lifelong learning measures

4.3.1 The University provides free access to educational resources for those not studying at the university

Saint Mary's University (SMU) provides free educational resources and learning opportunities to non-enrolled community members through extensive engagement initiatives. Through its Equivalency and Technical Vocational Assessment Office, SMU conducts free assessment programs leading to National Certificates and Certificates of Competency (pp. 1, 16). The university hosts financial literacy and livelihood workshops, such as candle-making and wine branding seminars, for local residents and women's organizations (pp. 2-3). To advance digital literacy, the IT and Computer Engineering departments deliver hands-on technology training in Microsoft Office tools to elementary pupils (pp. 6, 16). Additionally, the university hosts executive leadership seminars for local MSMEs (p. 13), distributes educational materials to daycare learners (p. 14), and shares its campus facilities, technical equipment, and Wi-Fi networks with external public agencies (pp. 15-16).

4.3.2 The University hosts events that are open to the general public (public lectures, community educational events)

Saint Mary's University (SMU) regularly hosts a diverse array of educational, civic, and public service events on its campus that are fully open to the general public. Under its institutional outreach framework, SMU facilitates free civic seminars and community forums, including a Community-Based Forum on the Rights of Indigenous Peoples held at the Sacred Heart Center (pp. 1-2), an HIV/AIDS Awareness and Education Seminar at Fr. Tonus Gymnasium (pp. 1, 5), and the "Project CARE" climate adaptation webinar (pp. 1, 10-11). The university also hosts public seminars on financial literacy and personal finance on campus to empower local residents (p. 1). Furthermore, SMU hosts vital public health and community welfare events, notably the full-scale SHANS Medical Mission at Pedro Calungsod Hall, which provides free consultations and laboratory services to the general public (pp. 1, 37), as well as community blood typing drives and inter-school academic quiz bees (p. 1).

4.3.3 The University hosts events that are open to the general public: executive education programmes (this refers to short courses for people who are not attending the university; this specifically excludes courses like MBA) and/or vocational training?

Saint Mary's University (SMU) provides extensive vocational training and executive education short courses that are fully open to local professionals, business owners, and the general public. Through its Equivalency and Technical Vocational Assessment Office (ETVAO), the university hosts programmed, TESDA-accredited National Certificate (NC) courses, including successful competency-based assessments for Caregiving NC II scholars under the Training for Work Scholarship Program (pp. 1, 19-20). On an ad hoc basis, SMU runs targeted executive-level skill development and community upskilling programs (p. 1). These open-access events feature the "Leading with Impact" practical executive strategy seminar for regional MSME owners (pp. 1, 7-8), a professional Barista 101 seminar with hands-on preparation demos (pp. 1, 3-4), technical Arduino microcontroller workshops (pp. 1, 14-15), and product label design and pricing strategy clinics for local cooperatives (pp. 1, 12-13).

4.3.4 The University undertakes educational outreach activities beyond the campus, e.g., in local schools, in the community, including voluntary student-run scheme

Saint Mary's University (SMU) coordinates extensive educational outreach activities and student-run volunteer schemes directly within local schools and communities. Under its flagship "Education for All" program, the Education Central Board of Students led *Project BUKLAT* to conduct storytelling sessions and distribute books to 86 elementary pupils at Villaverde (pp. 1, 5-7). Meanwhile, the Civil Engineering department mobilized its student volunteers to Sta. Rosa Elementary School for the *Alay Kapwa at Talino* initiative, delivering tailored lectures on mathematics and weather sciences alongside school supply kits (pp. 1, 10-12). In the community, the School of Accountancy and Business spearheaded financial literacy, candle-making, and product-pricing clinics to upskill 4Ps beneficiaries and local women's organizations (pp. 2, 41). Additionally, nursing students deployed localized health education workshops addressing geriatric safety, diabetes, and hypertension (p. 1).

4.3.5 The University has a policy that ensures access to these activities is accessible to all, regardless of ethnicity, religion, disability, immigration status or gender

SMU enforces distinct institutional policies ensuring that its community activities are accessible to all people without discrimination. Through the Lingkod Maria Community Development and Advocacy Center (LMCDAC) operational guidelines, the university formally integrates principles of equality and equity into its outreach framework and actively works to combat gender discrimination and gender-based violence (pp. 17-18). The policy mandates a multicultural spirit of universal brotherhood that explicitly embraces individuals regardless of their cultural backgrounds, diversities, faiths, or distinct worldviews, with a preferential focus on poor and marginalized sectors (pp. 17-18). This inclusive access model is reinforced by the university's Data Privacy Manual, which establishes safeguards for sensitive characteristics, including ethnicity, religious affiliations, age, and other personal traits, to sustain a safe and respectful environment for everyone (p. 1).

Policy Created:

SMU established structured institutional frameworks in 2023 to guarantee equal, non-discriminatory access to all university operations. Formally enacted through the 2023 edition of the *Manual of Procedures and Guidelines* for the Lingkod Maria Community Development and Advocacy Center (LMCDAC), this policy mandates a multicultural spirit of universal brotherhood that actively welcomes all individuals regardless of cultural background, diversity, faith, or worldview (pp. 16-18, 471). This 2023 framework establishes pillars of transformative equity, with a deliberate aim to eliminate gender discrimination and gender-based violence (pp. 17-18). It is dynamically paired with the university's Data Privacy Manual, updated in 2024, which shields sensitive attributes, specifically race, ethnic origin, religious affiliations, age, and foreign student alien status, to sustain a safe, accessible, and respectful learning environment for everyone (p. 1).

Policy Reviewed:

SMU reviewed and updated its comprehensive institutional policies during AY 2024–2025 to reinforce individual dignity, non-discrimination, and privacy across all university operations. Through the extensive review and update of its Data Privacy Manual on August 1, 2024, the university strengthened safeguards protecting sensitive personal details, including an individual's race, ethnic origin, religious affiliations, and alien certificate status for foreign students (pp. 1, 15). Furthermore, during the same academic period, the university reviewed its specialized workplace health programs and issued VPA Circular No. 28 on March 10, 2025, which established behavioral standards to maintain a safe and respectful campus environment (pp. 1, 12, 14-15). Collectively, these reviewed regulatory frameworks ensure that all employees, stakeholders, and visitors can access campus activities in accordance with strict principles of inclusion and structural safety (pp. 2-3, 15).

4.4 Proportion of first-generation students

4.4.3 Number of students

NARRATIVE REPORT

SDG: 4

Title of Activity: SEA TEACHER PROJECT

Date/Time: November 1 - 29, 2024

Venue: SMU, KRU-Thailand, UNESA-Indonesia, UL-Indonesia

Organizers: SEA TEACHER

Objectives:

Participants: Pre-Service Teachers

A. Highlights of the Activity:

Before the year comes to a close, let's take a trip down memory lane to the journey of 12 Marian pre-service teachers during their month-long SEA-Teacher Project exchange. As these outbound students took their first step towards global teaching opportunity, they were able to embrace a new arena of teaching and learning; they discovered not only the richness of diverse cultures, but also explored innovative pedagogical approaches and gained teaching philosophies.

During the first week of their practicum, they engaged in classroom observations through witnessing their mentors' teaching styles, as well as the practices of their host schools. The following week marked the start of their assistantship, where these pre-service teachers took a more active role in the classroom. They assisted their mentors in lesson planning, conducting activities, and interacting with students. In the third and fourth weeks, the pre-service teachers transitioned to teaching practice, where they were tasked to conduct and/or deliver their own lessons. As they took full responsibility for delivering lessons, assessing student progress, and managing the classroom, they gained valuable experience in lesson execution, adapting to students' needs, and reflecting on their teaching methods.

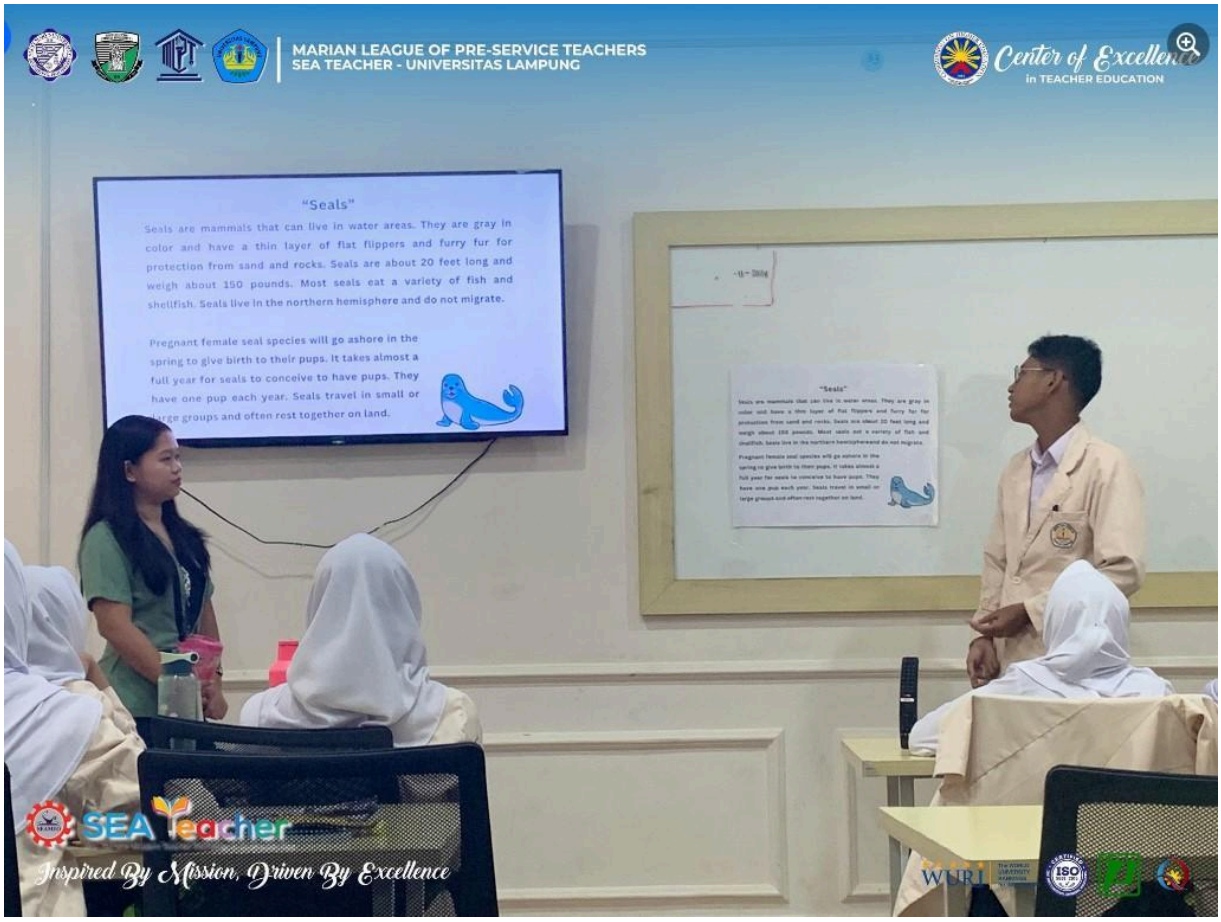

As they reflect on this incredible journey, the 10th batch of SEA-Teacher participants express their heartfelt gratitude to the program, Saint Mary's University, the School of Teacher Education and Humanities, the faculty of Department of Professional Education headed by Mr. Gerome H. Bautista, the host schools (Universitas Negeri Surabaya, Universitas Lampung, and Kanchanaburi Rajabhat University), and their mentors for the invaluable lessons, support, and encouragement they received throughout their exchange.

The SEA-Teacher Project indeed equipped them with teaching experiences, and at the same time, inspired them to become more culturally responsive educators.

"Seals"
Seals are mammals that can live in water areas. They are gray in color and have a thin layer of flat flippers and furry fur for protection from sand and rocks. Seals are about 20 feet long and weigh about 150 pounds. Most seals eat a variety of fish and shellfish. Seals live in the northern hemisphere and do not migrate.
Pregnant female seal species will go ashore in the spring to give birth to their pups. It takes almost a full year for seals to conceive to have pups. They have one pup each year. Seals travel in small or large groups and often rest together on land.

Narrative Report on the Activity

From March 27 to May 6, 2025, Fifteen delegates from Saint Mary's University participated in the P2A Hybrid Mobility by Disciplines 2025 – AI-SEAN: Harnessing Artificial Intelligence to Accelerate Youth Future program. Hosted virtually by Universitas Negeri Malang (UM), the event brought together students from across ASEAN to explore the role of artificial intelligence in preserving traditional businesses and empowering local communities.

The program began with a virtual tour and orientation that introduced participants to the host university and the objectives of the program. Participants engaged in dynamic icebreaker activities and country introductions that fostered cross-cultural interaction and early camaraderie. These sessions laid the foundation for a deeper exploration of how AI can be integrated into traditional business models across Southeast Asia.

Over the course of ten days, the participants attended interactive lectures and workshops focused on Artificial Intelligence, Internet of Things (IoT), and Robotics. These sessions were designed to build a strong technical foundation and inspire innovative thinking, while challenging participants to rethink how technology can address real-world problems in ASEAN's cultural and economic contexts.

At the core of the program was a case-based group project. Students were grouped with peers from different countries and disciplines to collaboratively develop a business proposal that leveraged AI to revitalize a traditional ASEAN craft industry. These proposals explored AI applications in marketing, logistics, production optimization, and customer engagement highlighting how modern technology could breathe new life into traditional enterprises without compromising their cultural roots.

Cultural understanding was further deepened through Bahasa Indonesia language classes and country-focused cultural exchange activities. These experiences allowed participants to appreciate both the technological and human dimensions of their project goals, emphasizing empathy and local sensitivity in their proposals.

The program concluded with a formal project presentation, where each group presented their AI-empowered business proposal to a panel of mentors and peers. The presentations showcased not only their technical learning but also their teamwork, creativity, and commitment to sustainable innovation. The closing ceremony featured acknowledgments of standout projects and reflections from participants, marking a successful end to the program.

The AI-SEAN Hybrid Mobility Program was a transformative experience that blended academic learning, regional collaboration, cultural immersion, and social responsibility. It empowered the

students of Saint Mary's University and their ASEAN peers to become thoughtful, tech-savvy leaders who are ready to shape a more inclusive and sustainable future for the region.

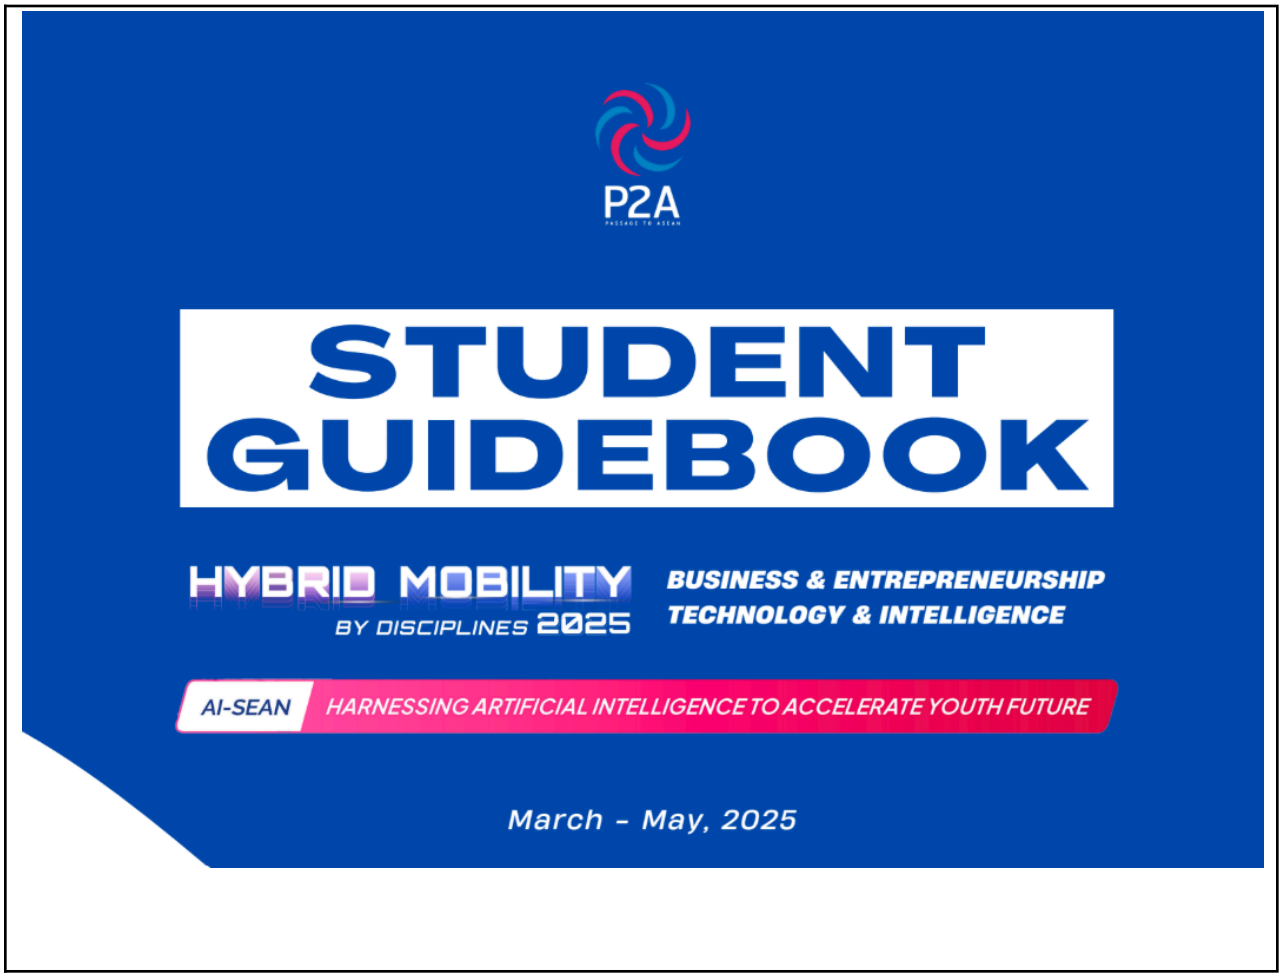

What insights have you gained from the activity?

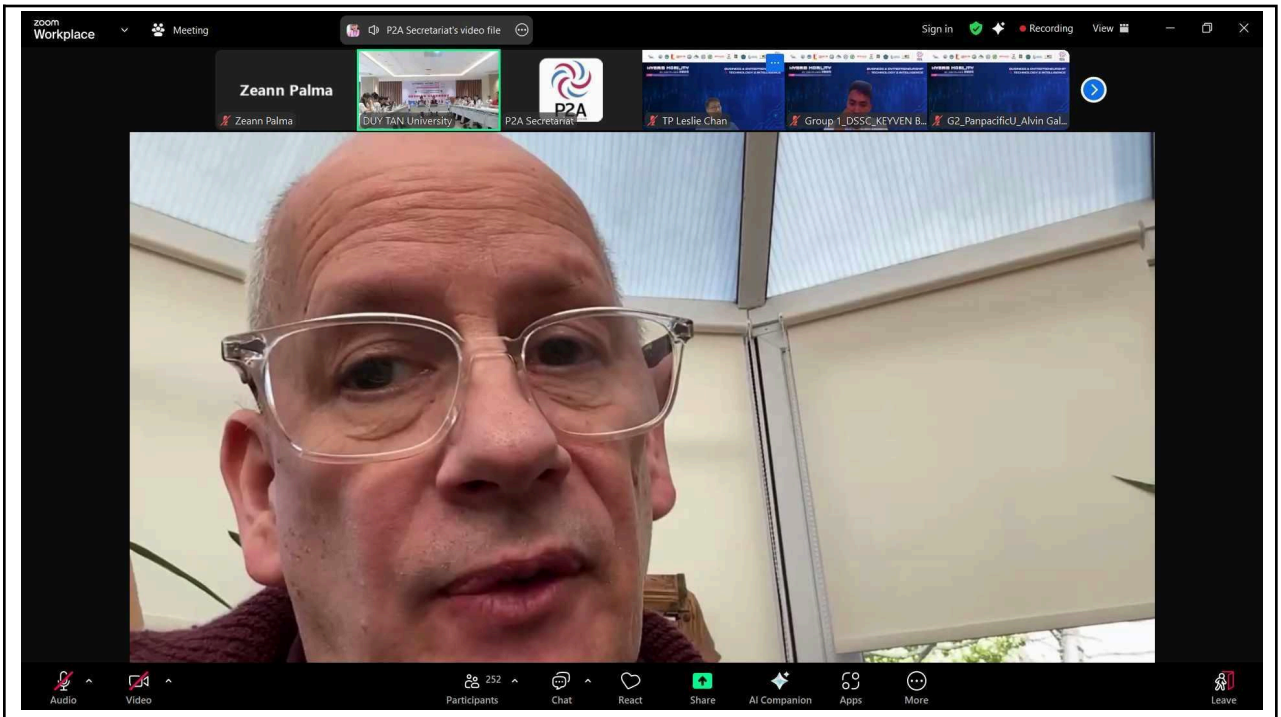

As part of our final project for the AI-SEAN program, we were challenged to create a business proposal that combined traditional ASEAN crafts with artificial intelligence. Throughout this journey, what impacted me most was how the program encouraged us to view AI not just as a futuristic tool, but as a bridge between innovation and tradition. It made me realize that technology can be used meaningfully not to replace what's old, but to preserve and uplift it.

One of the most memorable parts of the experience was working with peers from different ASEAN countries. Despite our cultural differences, we shared the same desire to create something meaningful for local communities. It reminded me that collaboration and understanding are just as important as creativity and skill. The workshops and sessions from Universitas Negeri Malang were not only informative but also deeply empowering. I admired how the university highlighted the importance of using our knowledge to help others, especially those in marginalized and culturally rich communities.

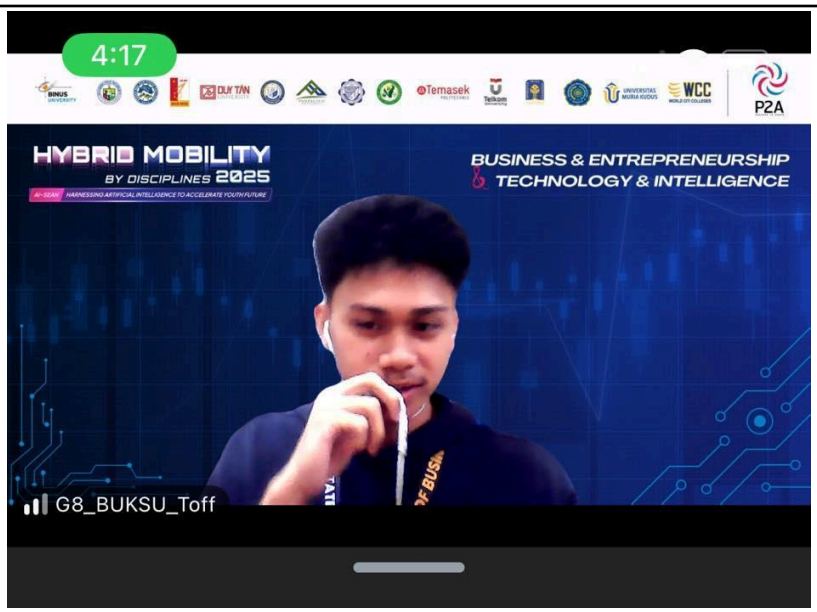

This program opened my eyes to how youth like us can become catalysts of change, using technology with purpose and heart. AI-SEAN didn't just teach me about AI it taught me to dream bigger, to work with others, and to always keep our cultural identity at the core of innovation.

NARRATIVE REPORT

SDG: 4 and 17

Title of Activity: Internship of Psychology Students from Howest University of Applied Sciences, Belgium
Date/Time: February 7-May 5, 2025
Venue: SMU college campus and Baguio General Hospital (Baguio City)
Organizers: Promotions, External Relations, and Internationalization Office
Objectives: Internship
Participants: Silke Dewulf, Febe de Decker

A. Highlights of the Activity:

2 International students from Howest University of Applied Sciences, Belgium, had their internship at Saint Mary's University Bayombong. They are Silke Dewulf and Febe de Decker. They had their internship on February 7 to May 5, 2025, as part of their academic program. The traineeship was structured to provide exposure to three key areas of psychology: Educational, Clinical, and Industrial.

Educational Exposure:

They spent three weeks at SMU's Guidance and Testing Office in Bayombong, working alongside Filipino interns and guidance counselors. They conducted intake interviews, administered psychological tests, and helped design an anti-bullying program for Junior and Senior High School students. Although only the assessment phase was completed, their contribution laid the foundation for future interns to continue the project.

Clinical Exposure:

The most intensive part of the internship took place at Baguio General Hospital and Medical Center, where they worked for four weeks with psychologists and interns. They handled intake interviews, case conceptualizations, and a complete psychological assessment. They also created and presented a group module on Depression, Anxiety, and Bipolar Disorder. This phase greatly enhanced their clinical skills and independence.

Industrial Exposure:

The final two weeks were spent back at SMU's Human Resource Development Office, developing training modules and attending sessions for staff.

NARRATIVE REPORT

SDG: 4
Title of Activity: SMU Student Shines in International Virtual Program
Date/Time: April 21, 2025 – May 2, 2025
Venue: Online
Organizers: Institut Teknologi Sepuluh Nopember, Indonesia
Objectives: The program's objective is to enrich participants with art & cultural activities such as traditional music, dance, foods and many more.
Participants:
1. IC Ramzil P. Ruiz
2. Ma. Joanna Elaine S. Calucag
3. Aei-em Mae C. Lachica
4. Arrheya Venish Chanco Totto
5. Harvey Xyril P. Padua
6. Krby Zyryll G. Perez
7. Jan Renzo S. Constantino
8. Joshua Matthews Rejano Tominez
9. Kylla Colline Dimaano
10. Me Jouy T. Paspie
11. Henri Donn J. Alayu
12. Jasfer Dela Cruz

A. Highlights of the Activity:

Ms. Calucang, one of the twelve representatives from Saint Mary's University, earned recognition during the Virtual CommTECH Explorations 2025 hosted by the Institut Teknologi Sepuluh Nopember. Among participants from various countries, Ms. Calucang stood out by winning the **"Best Letter"** award during the culminating ceremony. Her thoughtful reflections and creative expression in her final letter showcased not only her engagement throughout the 10-day international program but also her ability to represent SMU with excellence on a global stage.
